With the app, you can:

- submit receipts to bookkeeping at no extra cost
- approve incoming purchase invoices in Fivaldi and discuss them with your bookkeeper. This requires Fivaldi's electronic purchase invoice approver package or another electronic Fivaldi package.
- Read more about the app's features at fivaldi.fi/mobiili (in Finnish)

Here's how:

1. Download Fivaldi Mobile to your phone from your app store.
2. Log in to the app with your Visma Connect credentials — the same credentials you've previously used to log in to Fivaldi or Visma Scanner. If you don't have Visma Connect credentials, ask your bookkeeper for them.
3. Once you've downloaded the app and logged in, ask your bookkeeper to open a Fivaldi Mobile connection for your company.
4. Find detailed setup instructions here (in Finnish)
